

Accelerate your creative process

Quickly generate professional 3D system graphics for RC-Studio® 2.0 and RC-WebView™ 2.0 using this agile, online graphic developer's subscription library.

Tech Specs

Recommended Workstation Requirements

- Intel P4, 2.4 GHz PC
- 10 GB Hard Disk Space
- 1 GB RAM
- SVGA monitor (greater than or equal to 1024 x 768 resolution)
- Network Interface Card for Ethernet/Internet communications
- Professional Drawing Package (e.g. MS Visio, Fireworks, Photoshop, Illustrator, Corel, etc)
- Browser (IE 6, or greater, Firefox 3, or greater)

Library Components

- **Library Viewer** – allows you to quickly view hundreds of *png* images and *swf* animations organized in dozens of folders. Folders include: Actuators, Boilers, Buttons, Chillers, Coils, Compressors, Dampers, Ducts, Fans, Filters, Icons, Misc, Pipes, Pumps, Sensors, Systems, Valves, VAV Boxes and Windows. Image attributes include name, filesize, creation date and the ability to view as thumbnail or full size.
- **Recent Additions** – provides a convenient listing of the last 24 items posted to the library.
- **Graphic Requests** – a full featured, easy to use service that lets you submit an image request to our developers and graphic artists. This service allows you to describe your request and conveniently upload examples or links to your concept. An active log of past requests is included in the service allowing you to see the details and status of previous graphic requests.
- **My GrafxSet** – using your subscription product key as a password, access this protected area to download the entire GrafxSet library, renew your subscription, view and submit graphic requests, view available updates to your library, view your entire library, and view your library download history. The My GrafxSet service remains accessible even after your subscription lapses. In this situation, the only service that remains active is the renew subscription service.

Features

Professional Library

- Hundreds of professionally drawn images
- 2D and 3D rendered objects and components
- Numerous realistic and exciting animations
- Wide variety of equipment, frames and icons
- Intuitive and easy to use library viewer
